### Applicant Details

<b>Public/Semi-public Contracting Authority or Entity</b>	
<b>City / Town</b>	
<b>Country</b>	
<b>Contact Name</b>	
<b>Telephone</b>	
<b>Email</b>	
<b>Date</b>	

### Information for entrants

The Procura+ Awards reward successful, sustainable, circular and innovation public procurements that are already running and lead to significant improvements of public goods, services, processes and infrastructure. For the first time, the competition will be open to countries from all over the world.

This year, there will be three categories:

**Sustainable Procurement of the Year:** This category will reward procurements which integrate and combine the environmental, economic, circular and social aspects of sustainability. It aims to highlight public authorities which promote a holistic approach to implementing public procurement.

**Innovation Procurement of the Year:** This category will reward those procurements which use innovative approaches in their purchasing practices, as well as those that foster innovation by purchasing cutting-edge products, services and works and see the public authority as a launch customer, driving sustainable development.

**Global Initiative of the Year:** This category will focus on global outstanding public procurement initiatives, such as programmes, policies, actions, guidance and tools that contribute towards strategic, sustainable, circular and innovation procurement. This category goes beyond Europe and seeks to showcase good practice from all over the world (international applications will be considered only for this category).

## Questions for the Contracting Authority

Please answer the following questions using no more than the number of words allowed for each question. The insertion of images is allowed. You can provide links to further information or videos.

<b>1. What is the name of the procured solution/initiative [in English]?</b>
