CHG-MERIDIAN

EFFICIENT LIFE CYCLE MANAGEMENT

Linde Boot
15 April 2019
LET’S BE HONEST…

Based on a recent European study about waste electric and electronic equipment, the stock of mobile phones with businesses in Belgium for the year 2014 can be estimated to be in the order of 30 million pieces. Given that the total working population is about 7 million in Belgium, there can be up to 20 million “idle” mobile phone in Belgian offices alone. Estimates for Germany, France and the Netherlands would be in the same order of magnitude per capita.
SOCIAL RESPONSIBILITY

Device related

Process related
- Recycling of package materials
- Flexibel working
- Break & fix process
- End-of-use
  - Remarketing
  - Second and third life
  - Recycling
LIFE CYCLE
